

IMAGIC SOLUTION

WEIGHBRIDGE SOFTWARE

Imagic Weighbridge CCTV Integration

We provide solution for weighbridge Software integrate with CCTV Camera

- * System Automatically take Vehicle Image/Photo On Weighment Time, capture vehicle acute position on weighbridge and store as image in HDD with full ticket detail
- * When management requires viewing vehicle weighment time position on Weighbridge then system will provide all images in image viewer like image-1.
- * Check Point :- Re-checking Dispatch Vehicle on Gate with Actual Weighment \ vehicle position & Ticket Detail
- * View Live Vehicle Movement on Weighbridge Software Screen with multi angle with 1,2,3,4 Camera

Benefits

- ✓ Stop hefting & steeling in weighment
- ✓ Operator will check vehicle position by viewing camera
- ✓ Verify loaded good on vehicle
- ✓ Checking Same vehicle for both weighment
- ✓ Vehicle Image Zooming facility on Viewer
- ✓ Email send to as per required mail id
- ✓ Send Email in PDF File Format with full Ticket Detail, vehicle image ...
- ✓ IP Based DVR, it will connection LAN Network
- ✓ Working with Any brand analog / IP camera

The screenshot displays the 'Weighment Entry' application window. The title bar includes a close button. The main interface is organized into several functional areas. On the left side, there is a 'Description' section with a dropdown menu currently set to 'IT Kit', which is highlighted by a red rectangular box and a red arrow. Below this is a large black rectangular area containing a red square icon. Further down, there are three radio button options: 'Gross Weight', 'Tare Weight', and 'Net Weight', each followed by an empty input field. Below these are two rows of date and time fields. The first row is for 'Gross Date' and the second for 'Tare Date', both showing '11/11/2019' and '14:11:04' respectively, with small calendar icons and 'T' buttons. At the bottom left, there are two buttons labeled 'First [F2]' and 'Second [F3]'. On the right side, there is a 'Select Weighbridge' section with 'Auto' (selected) and 'Manual' radio buttons, and a 'Capture Weight [F5]' button. To the right of this is a 'Ticket No' field. Below these are several dropdown menus for 'Party_Name', 'Supplier_Name', 'Vehicle_No', 'Item_Name', 'Charges', and 'Field01_Name'. At the very bottom of the window is a status bar with a 'Connect Comport' checkbox, and four buttons: 'Save [F10]', 'Clear [F6]', 'Close [Esc]', and a dropdown menu showing 'NONE' with an 'OK' button.
